## WELCOME FROM BELLWOOD INTERIORS

Bellwood Interiors Limited has a wealth of experience in all types of construction projects across the UK. Based in Bedfordshire, our key sectors include education, commercial, retail, healthcare, and residential new builds. Our success has been built on our strong company ethos 'to inspire a dynamic working environment and increase the productivity nationwide'.

We have worked hard to establish long-term relationships with a select group of manufacturers ensuring that we only use the best quality systems such as British Gypsum, Siniat, Ecophon, AMF, Knauf, SAS, OWA, Tenon systems and glazed solutions along with Metsec and EOS Framing Systems.

Our experience, expertise, and commitment guarantee our conscientious and dedicated teamwork to the highest standards. All of our workforce is fully trained to current health and safety standards and have passed all relevant NVQ's and CSCS training programmes.

# OUR SERVICES

Established in 2004, Bellwood Interiors has grown significantly and the services we offer have also expanded. Customer service is our number one priority and our experienced team ensures we attain a good relationship with all our new and existing clients.

Bellwood team has a great deal of experience and knowledge. Our excellent understanding of the market keeps the clients happy and fully confident to receive the best outcome whatever the project.

We work very closely with our supply chain, offering our customers full product warranties and giving them extra peace of mind.

## CEILINGING & ACOUSTIC SOLUTIONS

We supply and install both great quality and long-lasting ceilings & acoustic solutions. Update your interiors space with stunning baffles, rafts, coffers, islands and many other types of bespoke and traditional ceilings. Suspended ceilings are not only vibrant and creative addition; they can also improve acoustics, humidity resistance, and fire performance.

## PARTITIONS

We can create any space enclosure to suit your preferences, offering a wide variety of lightweight partitions and wall systems. We use only the major partition manufacturers, installing metal framed partitions and walls that can be used in all types of new and existing buildings. The products used, cover all applications from simple Classic Wall Partitions or Acoustic Wall Partitions to high performance walls like Shaft Walls, Lead Lined Walls, Fire Rated Walls or Blast Walls.

## SFS

The fully engineered Steel Frame System (SFS) is custom designed according to your specific requirements. Bellwood works with leading manufacturers such as METSEC and EOS to provide our customers with the highest level of quality. All the products are light, cost-efficient and robust.

# CEILINGS & ACOUSTIC SOLUTIONS

Bellwood offers all types of ceilings and acoustic solutions depending on your requirements. We use leading suppliers and systems, ensuring the service provided stands the test of time. Bellwood offers a full range of ceilings and acoustic solutions, from simple plasterboard ceilings to a huge range of suspended ceilings as well as lay-in grid systems.

With the combined in house management and on-site skilled workforce, Bellwood Interiors offer a precise and cost-effective supply and install of:

- » acoustic ceilings
- » plasterboard ceilings
- » architectural metal ceilings
- » baffles
- » rafts
- » coffers
- » islands
- » ceiling tiles
- » curved ceiling systems
- » grid & tile ceilings
- » other bespoke ceilings systems

# PARTITIONS

All interior partition systems are of the latest technology and from our trusted manufacturers, providing a wide range of performances for various projects. We supply and install many types of internal glazed and solid partitions such as storage, temporary walls, curved, lead line walls, acoustic walls and glass manifestations. The design options are unlimited and important elements such as light, insulation, durability and even environmental impact can be considered when working on a project. Our team will lead you through the process and help with any of your queries. There is a huge number of systems you can choose from, some of our services include:

- » Acoustic Separating Wall system
- » Sound Insulating System
- » Shaft & Duct Encasement System
- » Fire Resistant Wall
- » Security Wall
- » Lead Line Walls
- » Wall Linings

# STEEL FRAME SYSTEM (SFS)

As an approved METSEC/EOS installer we work closely with our clients and manufacturers to provide the lightweight but durable steel structure. Build off-site SFS system offers an excellent acoustic, fire and thermal performance. All METSEC products are fully BIM compliant and carry an ETA certificate as a sign of quality.

Our experience, expertise, and commitment guarantee our conscientious and dedicated teamwork to the highest standards. All of our workers are fully trained to current health & safety standards and have passed all relevant NVQ's and CSCS training programmes.

# FROM OUR DIRECTORS

Mark Nixon

Mark Bellchambers

Bellwood Interiors was first established in 2004. Mark Nixon and Mark Bellchambers have an abundance of experience and knowledge within the construction industry between themselves. Working hand in hand, they have made the company successful and were able to grow the business further. Bellwood continuously strive to deliver quality projects and on budget.

Customer service is their number one priority and from experience ensures they attain a good relationship with all of their clients. Continuously, striving to ensure the highest standards are consistently met.

The company's success has been built on their strong ethos 'to inspire a dynamic working environment and increase productivity nationwide.'

**What is the long-term goal for the company?**

Our long-term goal is to become a well-established brand that the interiors sector recognises, as well as to inspire others to evolve with the company even further on many different levels.

**What has been the most challenging part of managing Bellwood Interiors Ltd so far?**

One of the biggest challenges so far has been the sustainability of growth as well as ensuring the continuous customers trust in our products and ethos. Staying focused on the quality of our services is always our main priority, even as the growth of the company continues.

**What is the most rewarding part of being a company Director?**

Watching our team members fulfill their roles and grow with the company – we are extremely proud of each achievement and commitment of Bellwood team, we have built over the years. In our opinion, there's nothing more satisfying than watching something that we've created grow and blossom.

**What are you the proudest of?**

Starting Bellwood Interiors from zero as physical workers (ceiling fixers, dry liners) was challenging, especially the part of learning how to manage and direct the company as we've got a team of people whose livelihood depends on us. We had to take on a big responsibility and accept that our every decision can have both a positive or negative outcome. We are very proud of all our staff as the company is built on passionate and committed people who work every day to the best of their ability.

**What are the biggest opportunities facing the company at present?**

There are many great opportunities for the present and future, as a relatively small company we want to consistently grow, meet new clients, advertise our brand and our business model. We have recently launched Bellwood Flooring division for any domestic or commercial needs that our customers may have. We always hope to be the preferred constructor for all our clients.

**The key to a successful business?**

From our experience, the key is to remain focused on the quality and delivering all our projects on

time and on budget, always with a proactive attitude. Hard work and effort pays off, especially with the right team around you, they are a huge part of the company's success!

**What is your daily motivation to keep working and reaching new goals?**

We are motivated daily by the great opportunities for the growth and establishment of Bellwood Interiors. We strive to continue the fantastic work relationship with our staff and clients through which we make our brand stronger.
